WILLOW

Willow, where do you go from here?
Should I shed another tear?
Should I try to call back?
Should I try to meet you back here?

Chorus: When you going to fall in love?
When you going to fall?
When you going to fall in love?

Willow, radiant neon light
Things are going to be all right
Put my fifty dollars down
Someday you will come around
One day we will move up town

Chorus:

Willow, your world is black and blue
Trade in all the old for new
Sometimes you've got to run
Or your dreams will never come true

Chorus:

Willow, why you have to bend that way?
Letting others take your shade
If you're going to fall from grace....
Would you reconsider leaving this place?

Chorus:
